AUTOFAC TECHNOLOGIES

Automation for Factories

Our Company

AUTOFAC Technologies (Since 2024) offers end – to – end design support for a wide range of applications, including special purpose machines, also we are providing Design and Manufacturing for Fixture, Conveyors, Automation Machines.

We are specialization in:

- ✓ **Special purpose machines.**
- ✓ **Plastic welding machine (Heat stacking & Hot plate welding machines).**
- ✓ **Conveyors**
- ✓ **Gauges & Fixtures.**
- ✓ **Robotics.**
- ✓ **R&D .**
- ✓ **Reverse Engineering.**
- ✓ **Manufacturing & Fabrication.**

AUTOFAC TECHNOLOGIES is a next-generation special purpose machine design and manufacturing startup committed to turning bold ideas into high-quality products. We offer end-to-end solutions from concept development and prototyping to precision manufacturing and final assembly. Also, we are providing design and manufacturing for conveyors, fixtures and Automation machines.

Our
Quality Services

High Quality

We constantly emphasize on quality standards of design & manufacturing being offered by us.

Timely Delivery

For timely delivery at the customer's end.

Cost Effective

Cost effective is the unique factors that assist us to become the prime preference of the customers.

Custom Designs

We always work to pleased customers with our service and work according to their requirement

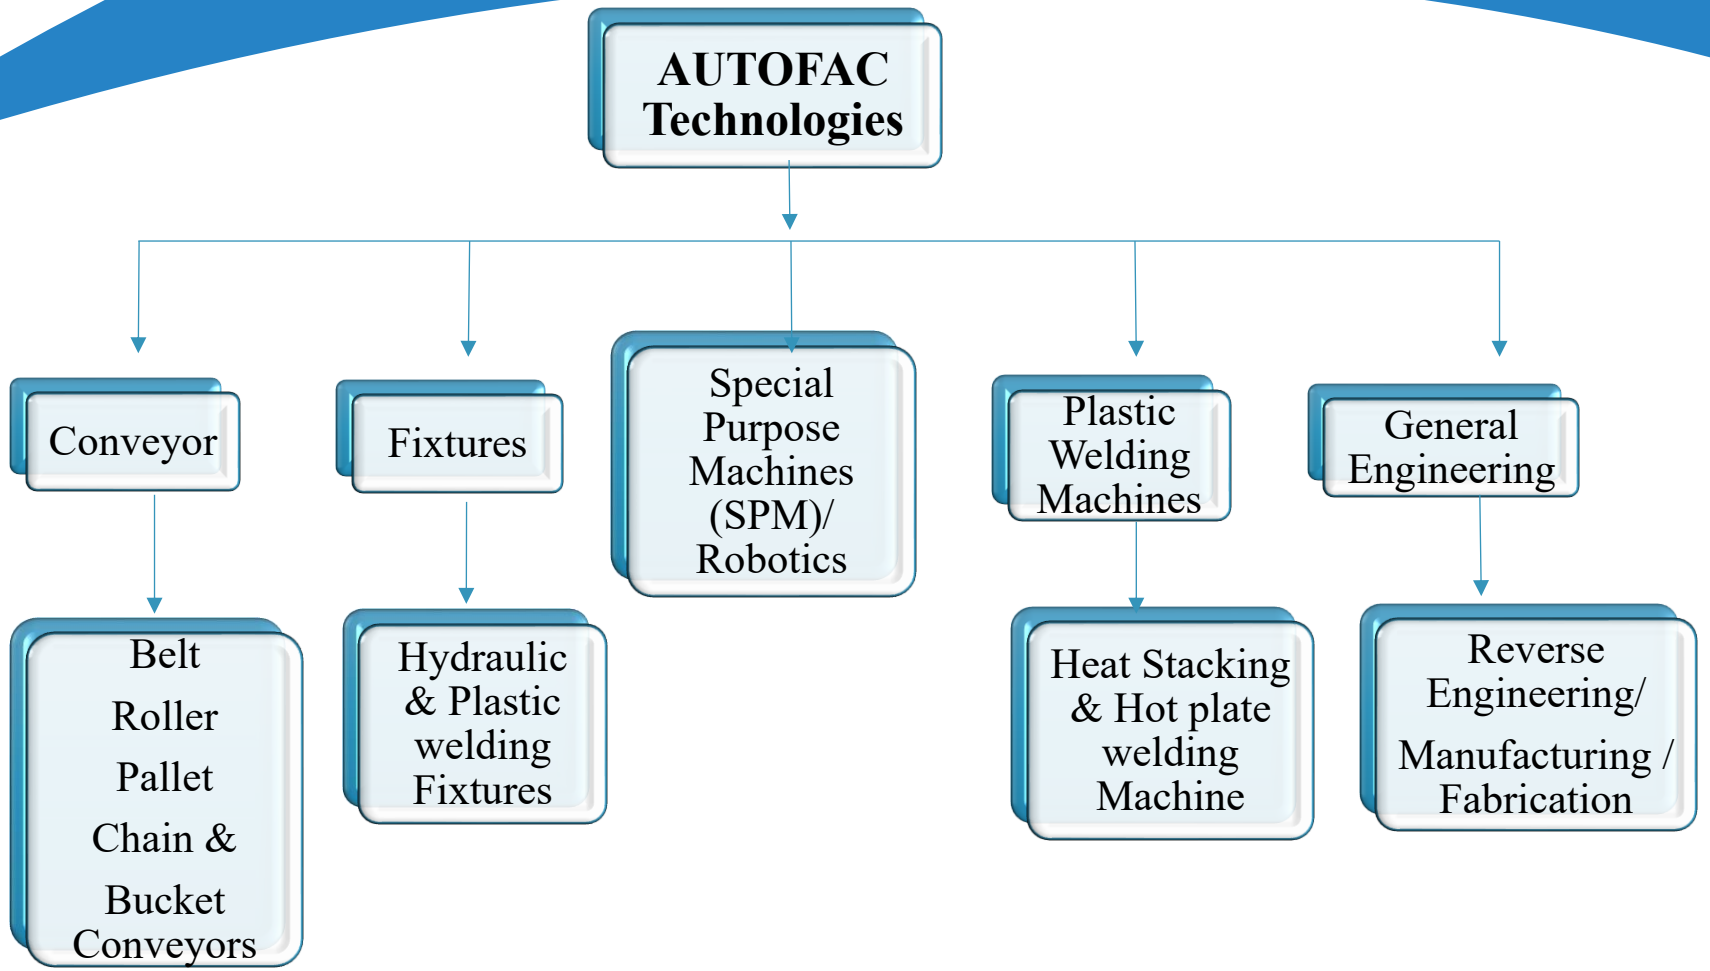

Vision

To be a leading innovator in special purpose machine solutions, driving industrial efficiency and precision through customized automation.

Mission

To design and manufacturing high-performance, tailor-made machines that meet unique industrials needs-enhancing productivity, quality, and competitiveness for our clients across sectors.

AUTOFAC Technologies
Conveyor
Fixtures
Special Purpose Machines (SPM)/ Robotics
Plastic Welding Machines
General Engineering
Belt
Roller
Pallet
Chain &
Bucket Conveyors
Hydraulic & Plastic welding Fixtures
Heat Stacking & Hot plate welding Machine
Reverse Engineering/
Manufacturing / Fabrication

We are Providing Machines through **various industries**
